Gosford Hill School

Gosford Hill School will soon be undergoing significant improvements. Bowmer + Kirkland has been selected by the Department for Education as the main contractor on plans to regenerate Gosford Hill School, we encourage people to visit the website www.gosfordhillplans.co.uk to view the detail.

Oxford United Football Club - Stadium

You may be aware that the OUFC stadium is now proposed to be built in the triangle site.

However, Gosford and Water Eaton Parish Council (GWEPC), following consultation with parishioners, objects to the planning application for the Oxford United Football Club (OUFC) Stadium. Whilst the design of the stadium appears to be to a suitable standard, it is the impact on the surrounding area which is our primary concern. Although the stadium itself is not located in our parish, it does however have a major impact on our community. Our full submitted objection to the planning application is detailed on our website.

North Oxford Golf Club

David Young and Sandy Gallaher of GreenWay write to GWEPC residents:

As you may know, land to the north of Oxford has been allocated for 4,400 houses to satisfy the ‘overspill’ of Oxford’s exaggerated housing need. All the houses will be built on sites that were previously Green Belt, including on the North Oxford golf course in the Kidlington Gap. Development will start soon on some of the sites and sadly golf will cease in October 2025.

GreenWay, a group of North Oxford golfers (with the help of Cherwell Development Watch Alliance), challenged this decision - right up to the High Court. We had great support from local people and Parishes, but ultimately, we lost.

The new Local Plan to 2040 is currently being prepared,

In our response to the Local Plan consultation, we argued against the housing figures and suggested that increased housing densities on the allocated sites meant that the golf course didn’t need to be developed. We also made alternative suggestions that housing could be built on Frieze Farm instead, or half the golf course could be developed, leaving the remainder as a 9 hole course. If none of these are possible, we hope to make sure there is reprovision of golf in the local area – this should be at Frieze Farm which is allocated for that purpose in the existing Local Plan.

At the time of writing, it seems that it will be some time before the final draft of the 2040 Local Plan is published. If you agree with the need to rescue golf, community facilities and precious open space in the Kidlington Gap, please make sure your local District Councillors and General Election Candidates are aware of your views – and ask them theirs!

If you have any comments, please do contact Greenway at greenwayoxon@gmail.com

Finally, please also look at what the area will be losing in the 2-minute video link <https://youtu.be/M2Ld3-bM6Xo> which we made a year or two ago and which was sent to Cherwell Councillors.
